UPS: No Bias As To Alternative Fuels/Advanced Technologies

- UPS' "rolling laboratory" tests virtually all alternative fuels/advanced technologies with more than 3,100 vehicles in operation worldwide
- Natural gas – CNG and LNG
- Hydraulic hybrid
- Propane
- Biomethane
- Hybrid electric
- First alternatively-fueled vehicle was all-electric in NYC – 1934
- Fleet to drive 1 billion alternative fuel miles by end of 2017

Agency & Partner Gratitude

- Thanks to numerous Federal, State, and Local Agencies and Partners.
- These agencies and partners have allowed UPS opportunity's to explore and engage in Emerging & Alternative Fuel Technologies through various GHG program's which encourage UPS to be early adopters

A word of -

Appreciation & Recognition to our Agencies & Partners for there continuous dedication.....

Thank You

Thank You
